[Annual GPRA Measure Review Briefing DocSS.DOCX](#)

## Agenda

1. 2019 OMB narratives (eleven are attached) – comments due the end of today (Wednesday, August 16)
2. GPRA Measure review due end of today (Wednesday August 16) – see attached
  - a. HHRA is proposing eliminating 3 measures due to inaccuracy in one measure and redundancy in the other two. If we are not ready to decide on the three measures proposed for deletion by HHRA by the deadline, we will submit tomorrow and let them know those measures are still under consideration. That will likely buy us a couple of more days. If we decide by tomorrow, that is even better. We are also proposing to add one of our new quarterly measures, the “Number of peer-reviewed journal articles with datasets cleared for publication”.
3. Managers Call Draft talking points (attached)
  - a. Who should do the CFC bit?
  - b. Other topics/comments on current?
  - c. Richard – please note that I added a bit for you. Pretty general – happy to add more.
4. Galesburg update - FYI
  - a. Region 5 sending letter to residents with data results. Letter currently states that if

questions, call ORD POC. NRMRL is suggesting the POC be Region 5.

b. Region 5 drafting letter to Galesburg. NRMRL is sharing comments with Region 5.

5. Round Robin
